

IN THE CLAIMS:

1. (Currently amended) A method of ~~using~~ rolling oil-
containing agricultural or grain products with a rotatable roll
having a roll body and an external covering of a non-metal
material, ~~for rolling oil-containing agricultural products or~~
~~other types of grain~~ for flocking the products, wherein the non-
metal material of the external covering is a mixture of synthetic
material and rubber, and wherein the mixture has a hardness equal
to a hardness of quenched and tempered steel.

2. (Withdrawn) A method of using a rotatable roll having a
roll body and an external covering of a non-metal material for
processing foodstuffs.

3. (Withdrawn) The method according to claim 2, comprising
using the roll for an intermediate processing of foodstuffs.

4. (Withdrawn) The method according to claim 2, comprising
using the roll for flocking foodstuffs.

5. (Withdrawn) A roll for processing foodstuffs or products for foodstuffs, the roll comprising a metal roll body having an outer surface, and a covering of non-metal material mounted on the outer surface of the roll body.

6. (Withdrawn) The roll according to claim 5, wherein the covering is of synthetic material.

7. (Withdrawn) The roll according to claim 5, wherein the cover is of a mixture of synthetic material and rubber.

8. (Withdrawn) The roll according to claim 5, wherein the covering has a hardness equal to a hardness of quenched and tempered steel.

9. (Withdrawn) The roll according to claim 5, wherein the covering is mounted releasably on the roll body.
